

What Makes the Cut?

Boston Symposium 2026

Date: 28 September 2026

Time: 10am-2pm ET

Location: CIC Cambridge

Time 10:00 – 10:05am	Welcome & Introduction from the Organizers SeromYx Systems & AVSBio & Rouken Bio
10:05 – 10:35am	Multi-Mechanistic IgE Targeting Approaches for Treatment of IgE-mediated Allergic and Atopic Diseases Daniela Cipolletta, Ph.D. VP of Immunology Seismic Therapeutics
10:35 – 11:05am	Designing Biologics in Biological Context Mara Gilardi, Ph.D. Senior Director, Scientific Alliances Rouken Bio
11:05 – 11:35am	Multi-parametric antibody discovery to expedite lead antibody generation Ilse Roodink, Ph.D. Chief Scientific Officer AVSBio
11:35 – 12:05pm	From Hit to Lead: Translating Antibody Discovery into ADC Candidates Lia Buffa & Cintia Garro, Ph.D. Research Associate III & Staff Scientist OncoPrecision
12:05 – 12:15pm	Networking Break
12:15 – 12:40pm	Lunch <i>Sponsored by AmberGen</i>
12:40 – 1:05pm	Where Is Your Drug? What Is It Doing? John Gillespie, CEO; Mark Lim, Ph.D., CSO; Leo Dettori, Ph.D., Senior Scientist AmberGen
1:05 – 1:35pm	Differentiating Antibody Candidates Through Functional Characterization Lenny Moise, Ph.D.

Chief Scientific Officer
SeromYx Systems

1:35 – 2:00pm

Closing Roundtable

Chaired by:

Bhupal Ban, Ph.D.

Director of Antibody Discovery & Protein Engineering
Crossbow Therapeutics
